Dear Hiring Manager,

I am writing to apply for the position of Ruby on Rails Software Engineer at Shape Construction. With almost 12 years of professional experience and a solid background in Full Stack Web Development, I am confident that my skills and expertise align perfectly with the requirements of this role.

My attached resume shows the highlights from my years of professional experience.

- **Why do you want to join us?**

- Alignment of Technical Aspects: My expertise and experience closely align with the technical objectives and responsibilities outlined in the job listing. I have always tried to achieve the mentioned objectives for all the projects I worked on, ensuring readability and modularity.
- Alignment of Personal Growth Aspects: I am particularly drawn to the focus on personal growth within your organization, especially the emphasis on transformative experiences such as the four-hour work week and the therapy program. I am motivated by the prospect of being surrounded by the best minds in the field, providing me with an opportunity to learn and evolve both personally and professionally.

- **What do you think you bring to the team?**

- I will contribute a wealth of experience in various frameworks, especially Rails, coupled with strong problem-solving abilities cultivated through diverse work across various domains. My disciplined approach and enthusiasm for refining products will make me an asset to the team. Additionally, my commitment to continuous learning and collaborative knowledge-sharing will ensure a positive impact on the team.

Thank you,

RajaRaviVarma
